**Malynnda Harwood: Finding her way back**

Malynnda Harwood is proof that it does get better. You can find yourself again. “It’s scary,” she explained, “because I had all the support, I had a good life and still...” And still she lost her way. After a devastating family death, Malynnda turned to drugs for relief from the crushing sadness and pain. She spent years homeless and living under a bridge. “But you guys saw that I wasn’t, you know, you saw that I wasn’t that person. You guys are the ones that actually gave me the chance.”

Salvage Service: A $23,000 December!

Our Salvage Service team was hard at it in December, bringing in $23,000 in harvested materials including high-end, commercial-grade kitchen appliances like Sub-Zero and Thermador refrigerators, as well as quality cabinetry.

"Really, it's down to general contractors who recognize the value of donating building materials over pitching them," says Salvage Service Manager Mark Pomeroy. Sometimes Mark only gets a couple of days notice before a property is demolished, so he would like to build a pool of safety-conscious volunteers with construction experience who would be willing to help for a 4-hour to full-day project. It's "work with a heart," according to Mark. Keep an eye on our Facebook page and Instagram to find out when we have items available on the ReStore sales floor. Remember to enroll in the ReStore Rewards program to get more discounts.

Certified Green!

It's official! The Gresham ReStore is now certified green! "Brieana [Weaver, store manager] and her team at the Gresham ReStore have made numerous upgrades to the facility including switching all of the sales floor lighting to LED which has helped save significant energy," said Gregg Howard with the City of Gresham. "We are excited to have the ReStore in Gresham, and look forward to excellent partnerships in the future that further help our community reduce waste and take care of our environment," he added.

WILLAMETTE WEST: 100th home!
In December, Willamette West Habitat for Humanity completed their 100th home. We would not have been able to do this without our 1,000 fall and winter volunteers who donated over 10,000 hours of volunteer work! A special thanks to all those Team Builder groups who doubled their impact by donating their time and money to Habitat's mission. We
are looking forward to the new year, where we will have 5 homes under construction at Allen Estates, and will break ground at Denney Gardens in January or February.
