

May 31, 2020

Dear family member,

We have just a brief update for you today. In our ongoing COVID testing, we identified three more elders at the Jewish Home at Rockleigh who are positive for COVID-19. All three of them are completely asymptomatic and all three have been moved to an isolation hallway to be monitored for 10 days or longer, should symptoms arise.

We are pleased to report that all of the staff testing on both campuses returned negative results and that all of the other elders, both at the Jewish Home at Rockleigh and Jewish Home Assisted Living, also tested negative.

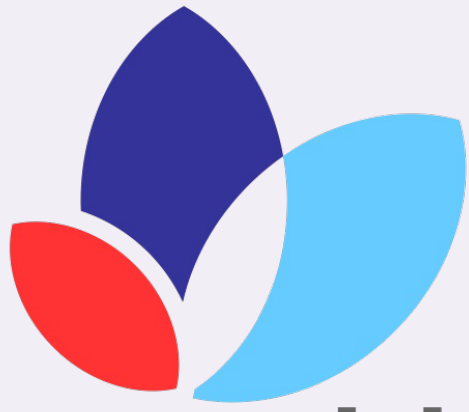

As with any positive case among the elders, we are doing a contact tracing to try and pinpoint cause. We are also continuing our vigilance with infection control, use of PPE as well as cleaning and sanitizing of the buildings.

Testing will be an ongoing process for us and we will continue to keep you apprised of the results. Please take care of yourselves and continue to be safe and well.

Sincerely,

Carol Silver Elliott
