February 1, 2021

Dear Family Member,

We wanted to let you know that one of our elders at the Jewish Home at Rockleigh has tested positive for COVID. This individual was tested early last week and was negative but later in the week tested positive and a PCR test confirmed that. This person is completely asymptomatic and has been moved into our COVID cohort unit. Contact tracing and follow up testing have been conducted.

We continue to look forward to our upcoming vaccine clinics. Our second clinic at Jewish Home Assisted Living will take place on Saturday, February 6 and our third and final clinic at the Jewish Home at Rockleigh will be held on Monday, February 8. At the February 6 clinic we will be including Essential Caregivers for their first vaccination. Essential Caregivers will be tested on Friday, February 5 prior to the vaccine clinic. We will be sending out an email tomorrow specifically to the Essential Caregivers who are registered for the clinic giving you specific times for your testing and vaccination.

As always, we continue our focus on infection control, appropriate use of PPE, handwashing and cleaning and sanitizing. Vaccination does not mean letting our guard down or believing that life is back to “pre-COVID normal.” Please follow the same guidelines that we remind our staff to follow. Wear a facemask in public, practice social distancing and frequently and thoroughly wash your hands.

And although it is not COVID-related, we did want to make sure you knew that the snow today has not interfered with any care or services on either campus. We are fully staffed, have a wide range of activities underway and everyone is safe, warm and watching the relentless snowfall out the window! We will have many staff staying the night in both buildings to ensure we have complete coverage and when necessary we arrange for transportation for any staff member who might have difficulty getting into work.

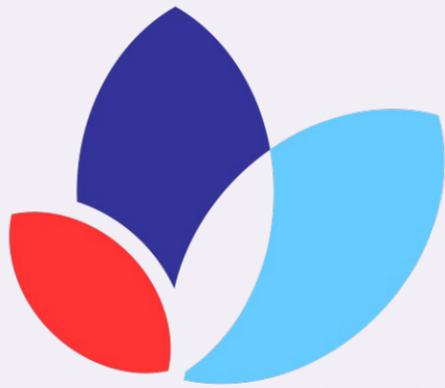

Please feel free to reach out if you have any questions.

Be well and stay safe,

**Carol Silver Elliott**
